He Also Congratulates Democracy and the People at Large Upon the Undoing of the Income Tax Law-Supreme Court Decision Destroyed Dangeronsly Socialistic Schemes.

New York, May 24.-The two day's stay of the Democratic editors came to an end to-night, when a banquet was tendered them at Delmoulco's. The banquet hall was taxed to its full capacity, covers being laid for 250.

After the banquet Col, Prown introduced John A. Mason, who thanked the Democrats of Gotham for their hospitality to the vis-ltors. Mr. Mason then read a letter from President Cleveland, which evoked tu-multuous applause. After expressing regret at his inability to be present, the

President in his letter said;
"When a campaign is actively on foot to force the free, unlimited and independent coinage of silver by the government at a ratio which will add to our circulation intrinsically worth but half the amount they purport to represent, with no provision or resource to make good this deficiency in value, and when it is claimed that such a proposition has any relation to the principles of Democracy, it is time for all who may in the least degree influence Democratic thought to realize their re-

PARTY OF THE PEOPLE. "Our party is the party of the people, not because it is wafted hither and thither by every sudden wave of popular excitement and misconception, but because, while it tests every proposition by the doctrines which underlie its organization, it insists that all interests should be de-fended in the administration of the gov-

rement, without especial favor or dis-erimination.

"Our party is the party of the people be-cause in its care for the welfare of all our countrymen it resists dangerous schemes born of discontent, advocated by schemes born of discontent, advocated by appeals to sectional or class prejudices and re-enforced by the insidious aid of private selfishness and cupidity.

"Above all, our party is the party of the people when it recognizes the fact that sound

and absolutely safe money is the life-blood of our country satrength and prosperity, and when it teaches that none of our fellow citizens, rich or poor, great or humble, can escape the consequences of a degeneration

of our currency.
'Democratic care and conservatism dictate that if there exists inconvenience and hardship, resulting from the congestion or imperfect distribution of our circulating medium, a remedy should be applied which will avoid the disaster that must follow in the strain of silver monometallism. Letters of regret were also received from Secretary Lamont, Postmaster General Wil-son, Oscar S. Strong and ex-Recorder Smythe.

HILL ON DEMOCRACY. Senator Hill was accorded a perfect ova-tion as he rose to speak to the toast, "Dem-

ocracy."
Senator Hill began with a tribute to the press and a tengthy explaination of Democracy. Then continuing, he said:
"The most important recent event in our national affairs is the decision by the Supreme Court that a federal tax on rems or on the income of personal property, laid by the last Congress, is a direct tax, and must be apportioned among the States according to the census.

"For that event we should congratulate ourselves and render hearty thanks. Especially grateful should we be that the judgment was reached through so many trials, so much argument and re-argument.
